Verdict for Dr. Pierce

AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for $300,000.00 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business; furthermore, that no alcohol, or other injurious, or habit-forming, drugs are, or ever were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatever, and that Mr. Bok's malicious statements were wholly and absolutely false.

In the retraction printed by said Journal they were forced to acknowledge that they had obtained analyses of "Favorite Prescription" from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs.

These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.

Catarrh

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative.

For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

EXHIBIT OF AGRICULTURE AND HORTICULTURE.

Jamestown Exposition, Va., Sept. 6.—Upon entering the States Exhibits Palace one is confronted with the Virginia State exhibit of agriculture and horticulture. The decorations are an exquisite dream of beauty. All of the different grains grown in the State are used in combination with tobacco and cotton, worked into elaborate designs upon back-grounds of blue and golden leaf tobacco. The same effect is realized in the decoration of the ceiling.

The exhibit covers three entire sections of floor space, with an area of eleven thousand feet, being over three times as large as any other exhibit in the building. Along the front is to be seen an outline of plate glass show cases of exhibits, being beautifully punctuated with urns filled with growing plants. Next is the pomological display of about twenty varieties of Virginia's choicest apples, backed by an extensive line of tables covered in pyramidal form with handsome jars of Virginia's fruit and vegetables preserved in chemicals. These are surrounded by an immense collection of preserved fruits and vegetables tastefully displayed.

The left section of the exhibit is flanked by the trucking display and the Norfolk county exhibit. The rest of this section consists of handsome exhibits from Chesterfield and Brunswick counties and the thirteenth judicial district.

The center or main section is filled with exhibits of tobacco, both in leaf and manufactured from different sections of the State, the city of Danville easily taking the lead. Peanuts, peanut products, honey, food products, grain, ladies' needle work, wines, both domestic and manufactured, are displayed most advantageously. To the rear of this section and covering the entire width encased in glass and lighted by electricity, is to be seen the handsomest natural history exhibit ever shown at an exposition. The birds and mammals are arranged in natural attitudes and surroundings.

The third section consists of handsome exhibits from the counties of Albemarle, eastern Shore of Virginia, Sussex, Dinwiddie and Isle of Wight.

The exhibit is in charge of Capt. G. Julian Pratt who is assisted by Mr. Edward T. Bonham, either of whom will furnish all desired information.

Had Tetter for Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to be.—D. H. BEACH, Midland City, Ala. Chamberlain's Salve is for sale by W. F. Creighton & Co., and Gibson & Timberman.

Health in the Canal Zone.

The high wages paid makes it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, billiousness, weakness and all stomach, liver and kidney troubles. Guaranteed at E. S. Leadbeater & Son's drug store. 50c.

WAR ON HINDUS.

A dispatch from Bellingham, Wash., says six badly beaten Hindus are in the hospital, 400 frightened and half-naked Sikhs are in jail, and the corridors of the city hall guarded by policemen, and somewhere between Bellingham and the British Columbia line are 750 natives of India, beaten, hungry and half clothed, making their way along the Great Northern Railway to Canadian territory and the protection of the British flag.

The long-expected cry, "Drive out the Hindus!" was heard throughout the city and along the water front Wednesday night. The police were helpless. All authority was paralyzed, and for five hours a mob of half a thousand white men raided the mills where the foreigners were working, battered down doors of lodging houses, and dragging the Asiatics from their beds, escorted them to the city limits, with orders to keep going.

The city was quiet yesterday, but there is a strong undercurrent of opinion which apparently approves the action of the mob, and it may be found impossible to prosecute the leaders.

Radical feeling has played no small part in the affair. Every day whites are being replaced in the mills by the Asiatics. Many instances of women being pushed into the gutter or insulted on street cars by the foreigners were also reported. General uneasiness of the whites is given as a reason for the outbreak.

The Hindus are all British subjects, and their case is being placed before the British authorities.

SUIT FOR DIVORCE.

Brooklyn swe1dom was shocked yesterday when it was learned that Mrs. Marie Louise Swan, of Manhattan, had brought suit against her husband, Henry Tilden Swan, a wealthy Wall street broker, and had named a prominent young Brooklyn matron as corespondent. Every effort is being made now to keep secret the name of the young woman so unpleasantly involved, but the anger of Mrs. Swan is expected to result in its being made public. The wife insisted that the name of the young matron accused by her be brought prominently into the testimony taken before Referee J. R. Thompson. Mr. Swan and his attorneys fought in vain to keep the name out of the testimony, but although the wife had permitted the papers to be served without a name she still insisted on bringing into the case the woman whom she suspected.

The testimony at the trial had to do with an escapade which occurred while Mrs. Swan was away for the summer. It related how, on a certain day, Mr. Swan, accompanied by the young Brooklyn matron, went to the Swan home on Riverside Drive.

Besides being wealthy, Harry Tilden Swan is well known in club life of New York. He is a member of the New York Athletic, Union League, Mayflower Descendants, New York Yacht and Baltusrol Golf Club and a Harvard man of 1896.

RIOT IN SAN FRANCISCO.

Another riot resulting from union labor troubles occurred in the Mission district of San Francisco yesterday, but was quickly quelled by the police after several arrests had been made. A large number of members of the structural ironworkers, returning from the funeral of one of their former associates, J. J. Peterson, who was fatally shot during the Labor Day attacks on United Railway employes, had reached the corner of Guerrer and Sixteenth streets when some of the men began to create a disturbance. Some stones and other missiles were flying, and in a few moments the windows of four street cars had been broken.

The crews of the cars drew their revolvers and fired several shots into the air to intimidate the crowd. This caused the arrest of Motorman P. J. Delps for carrying a concealed weapon.

One passenger, a woman, was struck in the face by a stone. No one was seriously hurt, however, owing to the prompt arrival of the police, who quieted the turbulent crowd. Five men, believed to have participated in the attack on the cars, were placed under arrest. The streets were soon cleared and regular traffic over the car lines was resumed.

SAVED BY HIS DOGS.

Two dogs owned by James Turner, night engineer at the pumping station on the Western Maryland Railroad at Williamsport, Md., probably saved his life by attacking a tramp who made a murderous assault upon Turner while he was at work Wednesday night. The tramp, whom Turner recognized as the man he ejected from the pumping station last winter, grabbed the young engineer from behind while he was standing just inside the door. He had a razor in his right hand and was in the act of using it, when Turner twisted partly around, and, grabbing a hammer, aimed a backward blow, striking his assailant on the head, but the tramp did not release his hold.

At that time Turner's dogs leaped upon the tramp, each securing a firm hold on his legs, and the tramp dropped the razor and was forced to defend himself. With both animals still clinging to him he ran along the bank, and finally kicked the dogs loose and escaped. It is supposed that he got off a freight train to settle the grudge he had against Turner, when the latter beat him away with a club. The tramp swore then that he would have revenge.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, SEPT. 6, 1907.

THE Standard Oil Company is endeavoring to secure the sympathy of the church-going class of the United States. Ministers throughout the northwest, and presumably throughout the entire country, yesterday received communications from the head offices of the Standard Oil Company explaining the alleged injustice of Judge Landis in fining the Standard $29,240,000. Every letter contained commendatory comments from friendly newspapers. In addition to this a dispatch from Cleveland, Ohio, gives a description of a church to be erected in that city on modern principles. Mr. John D. Rockefeller is to foot the bill. The church will be the largest and most novel in this country, and probably in the world. The edifice is to stand on the present site of the Euclid Avenue Baptist Church, the Rockefeller place of worship, and will bear the name of the present structure. It will be sixteen stories high, and will be institutional in character, having gymnasiums, lecture rooms in which courses of lectures will be delivered, rooms for clubs and societies for the work of men, women and children in various fields, training schools for missionaries, servants, artisans, a restaurant, dormitories, and a hospital with a high-class staff.

NOTWITHSTANDING the many assurances of alleged good-feeling prevailing between the United States and Japan, some people are still manifesting anxiety concerning relations between the two countries. The United States is making extensive arrangements on the Pacific coast for the care and equipment of the warships that are to be sent there and a strategic move of vast significance has been planned. There is a rumor of the lease of a coaling station in Novik bay and there has been an increase in the fortifications in the Philippines. The administration says the Atlantic coast is amply protected and no one on this side of the country need feel any apprehension. Hobson is still sounding the war cry. He wants to "awe Japan" and says we must "build ships and eat dirt." The hero of the Merrimac incident still believes war is imminent. Hobson urges that a battleship fleet be sent to the far East and kept there. A majority of the people of this country still insist that no serious trouble will occur between the United States and Japan.

TRAINWRECKERS are again active in the vicinity of Pittsburg, Pa., spikes having been drawn from the east bound tracks of the Baltimore and Ohio Railroad early last night for the purpose of wrecking the New York express train. This train, however, escaped, but a fast freight train was derailed and twelve cars. No one was hurt, but the engineer and fireman had to jump to save their lives. A box containing seven sticks of dynamite, weighing nine pounds was found yesterday in a ravine near the bridge of the Baltimore and Ohio Railroad Company, at Darby, a suburb of Philadelphia. An unsuccessful attempt was made to blow up the bridge Monday morning. Fifteen sticks of dynamite had been placed on the superstructure of the bridge, but only five sticks exploded, and but little damage was done. The motive of the dynamiters is not known, but it is said the Youngstown Construction Company, which is repairing the structure, has had considerable labor trouble.

WE ARE told that Elijah the Tishbite prayed that it might not rain, and that none fell for three years and a half in Israel. In our day a minister of the gospel is represented as offering supplications for rain, not for the purpose of increasing the fruits of the earth, but in order to discomfit people engaged in conducting a fair. The congregation of Rev. Orson E. Mallory in Worcester, Mass., look upon the failure of the big New England fair, which has been forced to close at that place on account of continued ruin, as an answer to the prayers of the pastor, who last Sunday petitioned that the enterprise might be flooded out as punishment for desecrating the Sabbath. The fair has been forced to suspend, and the managers say they have lost $6,000 as a result.

THE AMBITION of a great majority of men to become public servants was never more plainly illustrated than at the meeting last night, of the Board of Fire Wardens. The position of driver of the Reliance hose wagon was to be filled, and a number of young men were aspirants for the place, the salary of which is $45 per month. The duties of driver virtually consume all a man's time, as he is compelled to be at the engine house night and day, Sundays included. It would seem that in these days, when mechanics and laborers are in demand, that men would seek more remunerative employment than that paid drivers of hose wagons. Such would, at least, have more time to themselves and certainly enjoy more independence.

CONDITIONS in Morocco are causing anxiety in European cabinets, and fears are entertained that the storm centre in the Sultan's dominions will bring on a clash of the powers. Germany is jealous of France, the Kaiser believing that the real object of the French is to play a part similar to that of England when that country virtually assumed control of Egypt after bombarding Alexandria. Germany's foreign minister has served an unofficial warning. The Paris government is torn by conflicting necessities of conquering the Moors and keeping promises made at the Algeciras conference. The African situation is said to be constantly growing worse. The British are ignoring the Sultan and are treating directly with Raisuli.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, Sept. 6.

There is great activity among Central American diplomatists these days. After months of patient work on the part of Assistant Secretary of State Bacon, to whom the task was turned over by Secretary Root, backed up by officials of the Mexican government and by Senors Calvo and Coreo, the Ministers of Costa Rica and Nicaragua, respectively, to this country, the five small republics of Central America have at least been brought into accord upon a proposition for the holding of an international conference for the discussion of all their differences. It is the hope that, as a result of this conference, a treaty may be framed which will guarantee the future peace of this section of the world. That is the avowed purpose of the proposed assembly and it has met the approval of the five Presidents. Now the five Foreign Ministries of Guatemala, Nicaragua, Honduras, Salvador and Costa Rica are busily engaged in making suggestions as to where the conference should be held, when it will be most convenient for them to attend, how many delegates each country is entitled to, and the range of subjects that shall be discussed. The main object of the conference is to secure the adoption of a treaty which will make it obligatory upon each of the Central American republics to submit to arbitration every difference of whatever kind that may arise between them and which might otherwise threaten to disturb their peaceful relations. The treaty is further to provide that the United States and Mexico, jointly, shall have the authority to enforce this provision. If either party to a dispute objects to submit it to arbitration it is to be made the business of both Mexico and this country to bring such pressure to bear upon the recalcitrant that he will be compelled to yield. It is the general expectation that the conference will hold its sessions in this city. Because of the necessity of having not only a large hall for the plenary meetings of the delegates but a number of smaller rooms for conferencee, etc.—such accommodations not being available at the State Department—it is thought probable that the meetings will be held in the Congressional Library.

Attorney General Bonaparte has advised the Department of Justice that for a few days his address will be Asiticoux, Maine. The fact that Judge Landis, of Chicago has just left New York city for a northern fishing trip, and the announcement that District Attorney Sims is somewhere in Michigan, leads to the impression here that a conference between the three men over the Chicago and Alton rebate cases may be held before Attorney General Bonaparte leaves his Maine lodge. The Attorney General is to speak before the civil service reform league at New London, Conn., September 11, On the 18th, he will address the Prison Congress at Chicago. It is understood that he will at that time have a final conference with Judge Landis and United States District Attorney Sims and determine whether the grand jury, which has been given a recess until the 24th, shall continue its investigation into the Chicago and Alton case or be discharged from any further consideration of it.

The army is co-operating with the navy in preparing for the possibility of war in the Orient. While the Navy Department is arranging the details of the cruise of the battleship fleet to the Pacific coast, the War Department is looking after fortifications in the Philippines. Orders have been issued to Lieutenant Colonel Frederick V. Abbott, corps of engineers, and Captain Stanley B. Emerick, coast artillery corps, to proceed at once to Manila for the purpose of carrying out secret instructions with reference to the defenses of that city and of Subig bay, the site of the future great naval station.

Acting Secretary of the Navy Newberry today entered an absolute denial of the published statement that it has been definitely decided to transfer the old ship Constitution from Boston to Annapolis. While that course has been considered as a possibility, in view of the fact that the old ship is occupying a good deal of room at the Boston navy yard which might be used to more practical effect, Mr. Newberry said today that the entire question of the disposition of the ship has been indefinitely postponed. That is understood to mean that the patriotic outcry raised by the Massachusetts people has been effective in keeping the Constitution where she now is.

Ambassador Reid has not yet notified the State Department of the agreement upon the new modus vivendi to govern the operations of American fishermen in Newfoundland waters during the present season, the draft of which, according to dispatches from London is to be signed early next week. The Department is not, therefore, in a position to give out any details of the new convention.

Charges of stupendous land and timber frauds in New Mexico are being rigidly investigated by the Department of Justice. It is believed that wholesale prosecutions will follow the probing that is being done by three special agents from the Department.

Acting Secretary of the Navy Newberry will leave here tonight on his vacation. Secretary Metcalf, who has been absent in California since late July, is expected to return and resume the direction of the affiairs of the Department next Tuesday. In the meantime Rear Admiral Cowles will act as Secretary tomorrow and Monday.

No word has yet been received at the State Department from the British Embassy or any other source regarding the reported attack by an American mob upon Hindoo employees of the mills at Bellingham, Was.

Richard Gregor, a negro tramp, 36 years old, who says he is from Tennessee, was identified last night by Hattie Williams as the murderer of William Garner, who was found dead with his skull crushed in Rock Creek Park Sunday.

According to Acting Secretary of the Navy Newberry there has been no serious intention of establishing a navy yard at San Diego, Cal., and no recommendation to that effect has been made by anybody in official position.

With this exception the rest of his ministry was spent in the Maryland conference.

The factory of the Wemple Gravely Tobacco Company, manufacturers of chewing and smoking tobaccoes, of Danville, was destroyed, together with the entire contents, by a fire which was discovered at midnight last night, entailing a total loss of about $75,000. The fire started in the boiler room and spread rapidly. The plant of Swift & Co. and the factory owned by Mrs. F. X. Burton, adjoining, were damaged to the extent of about $5,000.

Thomas J. Reed, foreman of the Round Hill Flouring Mills, at Round Hill, Loudoun county, was caught in the machinery and chain belting of one of the grain elevators of the mill Wednesday. His injuries are serious and probably fatal. All his ribs on the right side were broken, his right arm and hand lacerated and almost torn from his shoulder. He was unconscious when found and his death is expected. He is an experienced miller, about 50 years of age, is married and has a family of several small children.

Mrs. Pepper Bell, the medium, who invented "Little Bright Eyes," the handy spirit, appeared in court yesterday when the examination of the mental condition of her husband, Edward Ward Vanderbilt was resumed in Brooklyn. As she sat down beside her aged husband, he smiled and said "Hello, May." She returned the smile, saying "Hello, Eddie" and the old man patted her on the arm. J. F. Libby, the first witness, denied that he had engaged in a five minutes, kiss with Mrs. Vanderbilt and he also denied stories of improper telephone messages.

FIRST INSTALMENT PAID.

The Treasury Department received yesterday a certificate of deposit from the managers of the Jamestown Exposition for $50,000. This is the first large instalment which the managers have paid to the Treasury on the loan of $1,000,000 which Congress voted to the exposition, and which was to be paid in semi-monthly instalments of $100,000. The managers have, however, sent to Washington regularly each week 40 per cent. of the gross receipts received at the fair, so that with the $50,000 received today, the managers have paid back to to the United States approximately $150,000.

The proposition to continue the fair another year is received with friendly interest in Washington, and it is believed that the administration will cheerfully recommend to Congress the enactment of all legislation that will be necessary. Congress must appropriate money to continue the exhibits of the government, as well as appropriate further sums for the expenses of the commission.

Killed by Terrorists.

Sosnovice, Russia, Sept. 6.—The manager of Renards Coal Mine was shot and killed here by terrorists today.

Virginia News.

Geo. W. Gunnell, of Great Falls, Fairfax county, died on Thursday evening of last week. He was about 50 years old.

The annual meeting of Marr Camp, C. V., will be held at Fairfax, Sept. 16th (court day). Officers for the ensuing year will be elected.

Mr. Harry St. George Tucker yesterday denied he had authorized an announcement of his candidacy for Governor. Many people of Virginia are still under the impression, however, that Mr. Tucker will be a candidate for governor at the next election.

The wedding of Miss Cora Elizabeth Lynch to Mr. Albert Brown Piggott took place at 8 o'clock Wednesday evening in the Methodist Episcopal Church at Falls Church. The ceremony was performed by Rev. J. L. Kibler and was followed by a reception at the home of the groom.

While attempting to cross Buffalo Run, near Winchester, which was swollen to a raging torrent by the heavy rains Wednesday night, Robert Y. Conrad, son of Maj. Holmes Conrad, and Nelson Page, son of Rev. O. R. Page, narrowly escaped drowning. With the water running over the seat of the buggy, the harness broke, and they clung to the vehicle for more than an hour before they were rescued.

In the Corporation Court in Lynchburg yesterday the jury in the case against John Robinson, colored, returned a verdict of fifteen years in the penitentiary on the charge of having attacked Mrs. Martha Galliher last June. The negro pleaded that he went into the wrong house when drunk. In the same court Henry Teninity, white, pleaded guilty of attempted assault on Mrs. Josephine Bristow, of Buckingham county, two weeks ago. Judge Christian heard the statement of the woman and gave Teninity five years.

THE RAILROAD CASES.

There were unexpected developments in the controversy between the State and the railways at Asheville, N. C., yesterday when Judge Pritchard was asked to grant another injunction to prevent Jacob A. Long, on behalf of E. L. Shaw, of Alamance county, from suing the Southern Railway and the North Carolina Railroad Company to recover penalties because of the failure of these companies to put into effect the new rate law July 1.

The suits are brought with the knowledge of all parties that Judge Pritchard had made an order in the case of B. C. Beckwith et al., that no suit could be brought for penalties against the North Carolina Railroad Company, which is leased by the Southern Railway, as well as his order forbidding such suits against the Southern. So far as the Southern is concerned, the suit is brought against the advice and request of Gov. Glenn following the peace compact between the State and railroads, by which the new rate was put into effect.

The suits are for the purpose of making an issue of the question of whether the federal court can legally enjoin suits against the North Carolina Railroad Company, which is a State corporation.

The Southern has accepted the challenge and called on the United States Circuit Court to protect its rights, and that court has taken the first step to that end.

The Southern has filed a supplemental bill, in which it sets up that the defendants named well knew of the orders of Judge Pritchard that neither the Southern nor the North Carolina railroad companies should be sued for penalties under the rate law. Judge Pritchard has issued a temporary restraining order, as he did in the other cases, and issued a rule against defendants to show cause before him at Asheville on September 19 why a permanent injunction should not issue against them.

PASSENGER RATE CASES.

Judge Jeter C. Pritchard, of the United States Circuit Court, will be in Richmond on Tuesday, when a term of that court for the eastern district of Virginia will be held. The passenger rate cases will be disposed of at that time, so far as this court is concerned.

The State will be represented at the hearing by Attorney General William A. Anderson, United States Senator John W. Daniel, and Attorney John S. Eggleston, of Richmond. A. Caperton Braxton, who has been assisting in the case, will not return from Europe in time to participate in the proceeding.

The railroads will have a large number of prominent attorneys on hand to represent their interests.

YOUNG COUPLE KILLED.

The mangled remains of Benjamin Wootten, aged 19 years, and his sweetheart, Miss Lillian Taylor, aged 18 years, daughter of Uriah Taylor, a farmer living near Seaford, Del., were found yesterday beside the tracks of the Delaware Railroad at Cannon Station, two miles north of Seaford. The young couple attended a prayer meeting Wednesday night and had started for home. It is believed that while crossing the railroad tracks a northbound train approached and that in getting out of its way they stepped in front of a southbound train, which was due at the same time, and were run down. The bodies were found by the parents of the young couple, who had hunted throughout the night for them.

STOPS DOUBLE TRACKING.

It was announced at the Southern Railway headquarters in Washington yesterday that, owing to recent adverse railroad rate legislation in several Southern States and to "general conditions," the double tracking of the Southern Railway between Chattanooga and Ooltewah Junction, in Tennessee, and north of Greensboro, N. C., had been ordered stopped, pending further instructions. Contracts had been entered for double track work in Tennessee aggregating about $15,000,000. The money intended for the proposed improvements in Tennessee and North Carolina has been withdrawn and will be used in operating the road.

Today's Telegraphic News.

Charges Breach of Promise.

New York, Sept. 6.—Miss Paul A. Klippenberg, the beautiful Viennese girl, who was incarcerated on Ellis Island following charges brought against her by Horace E. Miller, wealthy celluloid manufacturer of Newark, N. J., can return to Europe without interference by the government, if she only would, according to an announcement made today. But she will not go. She came here to charge Miller with breach of promise, and she said today that she was determined to press the charge, since resentment has grown into hatred through treatment accorded her here. It is asserted that the federal authorities are anxious to drop the case and will cancel the bond under which she is now released from the charges of blackmail and being an undesirable alien.

"If we do not receive word from Washington that the case will be reopened within two days," said Edwin S. Merrill, the girl's attorney, "we will apply to the federal court for an order to show cause why a writ of mandamus should not be issued compelling the reopening of the case. Nothing will satisfy my client now except complete vindication." Miller has not appeared in the case publicly, but it was said today that if the case was reopened, he probably would be forced to appear as a witness. He is a man of family and is said to have made love to Miss Klippenberg abroad.

Mobs After Earle.

New York, Sept. 6.—Loneliness not fear of his neighbors' vengeance, has driven Ferdinand Earle, his friends say, from his home at Monroe, N. Y. He has taken up his residence temporarily with his mother, Mrs. Lillian G. Earle, in this city. It is understood he will return to Monroe in about a week. A crowd with a tar bucket and a feather pillow awaited his expected arrival at the Monroe station for an hour last night, but Earle did not come. It is believed the danger of mob violence has now passed, but a committee has been organized to serve notice on the artist when he does arrive that he must quit the town at once, never to return.

A mob of large proportions gathered about the handsome Earle home at Monroe early today and were prevented from breaking in the doors and ransacking the place only by the advice of several prominent citizens, who said they had searched the house and were certain Earle was not there.

In a statement replying to newspaper criticism today Earle used this representation: "The papers often contradict one another as much as the Bible contradicts itself." Earle has settled $200,000 upon his wife.

Mysterious Shooting.

Brazil, Ind., Sept. 6.—Dr. Edward Giasgo, a prominent young physician of this city, is dead, and his wife though slightly wounded in the breast, was placed under arrest today following a mysterious shooting on a lonely road between here and Terre Haute last night, Dr. Giasgo had sued for divorce, and his wife, with her attorney, drove to Terre Haute Thursday to see him and try to reach an agreement as to alimony. After talking the matter over, Dr. Giasgo started to drive his wife back to Brazil. They had gone but a short distance when revolver shots were heard. Framers who reached the buggy found the woman wounded and the man dead. Mrs. Giasgo declared her husband had attempted to shoot her and then killed himself. At the coroner's investigation today three bullet holes were found in the dead man's head, any one of which would have caused death. The police scout the theory that he could have inflicted them all himself. Mrs. Giasgo is a beautiful woman and a member of a prominent family.

Accident at a Birth.

Pittsburg, Pa., Sept. 6.—Two women, Mrs. Jessie Till, aged 72 years, and Mrs. Matilda Till, aged 30, are not expected to survive injuries received at a literal baptism of fire of baby Till, a ten-pound boy, whose ushering into the world last night was a most spectacular one. Five minutes after the baby's birth the grandmother upset a lamp and in an instant the house was in flames. The woman's clothes caught fire and the attending physician, Dr. Gill, wrapped a blanket about her and carried her out. Then the physician returned to the screaming mother who was pleading for her baby to be rescued and carried the infant and mother to a neighbor's. Neither the mother nor grandmother is expected to recover. The Till home is a total loss. Dr. Gill's hands were badly burned but otherwise he escaped injury.

The Futurity Races.

New York, Sept. 6.—Colin, Keene's Futurity winner, will be a certain starter in the Flatbush stakes at Sheepshead tomorrow and he will have to concede great bunches of weight to every other starter in the race. If he can do so and win he will be the undisputed champion of the year. The race is seven furlongs and the Whitney crack, Bar None, who finished second to him in the Futurity, will be in receipt of fifteen pounds from him.

Athletics at Jamestown.

Jamestown, Va., Sept. 6.—Today marked the beginning of the great athletic event of the year. Athletic stars from all parts of the United States and Canada are competing in the junior national championship. The hopes of the eastern contingent are centered on the men from the New York and Irish American Athletic Clubs. Tomorrow's contest will be for the senior championships.

New York Stock Market.

New York, Sept. 6.—Rumors that Northern Pacific directors would declare an extra dividend of 6 per cent. were used in the late trading in the first hour as a reason for buying stocks for both long and short accounts. Northern Pacific advanced 3 points. St. Paul followed Northern Pacific on this advance, the stocks named selling at the highest range reached on this movement. Commission houses generally reported that they had received many buying orders at the market in the active groups of railroads and industrials.

Double Killing

Chicago, Sept. 6.—A young woman's threats to have her suitor arrested because he proposed marriage to her while he had a wife and child, developed today as the motive for the double killing in the fashionable North Armitage neighborhood last night. Miss Elizabeth Liesenfield, a beautiful nineteen-year-old girl, and a man named George Cook, are dead while Mrs. George Cook is hurrying home from Baltimore, abruptly ending a summer vacation. Following her from the street into a small candy store Cook drew a revolver and shot Miss Liesenfeld in the breast. She died instantly. Cook then turned the revolver on himself.

Postoffice Wrecked.

Fairfield, Conn., Sept. 6.—The masked men wrecked the postoffice here early today by blowing the door off the big safe and escaped after a gun fight with Postmaster E. W. H. Pickett, taking between $300 and $400 worth of stamps and money. Postmaster Pickett was awakened in his room by a burglar alarm and ran out armed with a shot gun. Two men shouted at him to stop and began firing. Pickett took a sheltered position and returned the shots. The two men shouted to a third burglar inside who replied that he was going back the blow the safe and did so, the explosion shaking up the town and wrecking the interior of the office and part of a store adjoining.

Killed Wife and Himself.

Pitteburg, Pa., Sept. 6.—Peter Boyle, a gardener forced his way into a rooming house on Forbes street early today and dragging his wife Ella from her bed where she was sleeping with her seven-year-old son, fired a bullet into her head and then killed himself with a shot in his temple. Francis, the couple's seven year-old son fought with his father in an effort to prevent him from shooting himself, but the father shook himself loose, throwing the boy to the floor. Mrs. Boyle is at the Mercy Hospital with little hope of recovery. Boyle is said to have been out of work for some time and had been drinking heavily.

His wife died several hours later.

Mysterious Death.

New York, Sept. 5.—The dead body of a man found today on the Staten Island Rapid Transit tracks at South Beach has given the police another mystery to wrestle with. It is believed the man was run over by a train, but as there were no witnesses, a murder theory is being investigated. Clothes of good material, the well-kept hands and other marks lead to the belief that the victim was a man of refinement. The initials "H. St." engraved on a watch offer the only clue to the man's identity. The head was at first reported missing, adding to the mystery, but later was found near the tracks.

Two Children Burned to Death.

Williamsport, Pa., Sept. 6.—Two children of Mr. and Mrs. Aaron Anderson, living in an isolated section of Potter county, were burned to death last night, following the explosion of a lamp in their room. The children's father and aged grandfather, George Anderson, helplessly ill in a downstairs apartment, were perhaps fatally burned before being dragged from the burning house by Mrs. Anderson and her ten-year-old son. Mrs. Anderson, too, had to care for her two-weeks-old baby.

Alleged Plot Against King Edward.

Marienbad, Sept. 6.—An anarchist plot against King Edward who has been here several weeks taking the cure is reported to have been discovered by Paris detectives and the greatest precautions have been taken to guard the king until he arrives in London tomorrow. According to the word sent to the police from Paris an emissary of anarchists left there yesterday for Marienbad to carry out a plot against Edward.

Automobile Race.

New York, Sept. 6.—Automobile enthusiasts will have their innings today when a 24 hour race will start on the old Morris Park race track. The long race will start at 8 o'clock tonight, preceding which there will be a number of short distance events. The track is in splendid condition and records are expected to be broken.

The Shooting of John J. Phillips.

Cleveland, O., Sept. 6.—The authorities investigating the mysterious shooting of John J. Phillips at his home last Monday have been unable to find a satisfactory solution. Mrs. Phillips, against whom a warrant for second degree murder has been sworn, is still under guard at her home, but the warrant has not been read to her.

Buried by Snow Slide.

Santiago, Chile, Sept. 6.—A big force of rescuers is digging in the snow in an effort to save fifty persons buried with the Chilean custom house at Juncat under an avalanche yesterday. It is admitted that it is doubtful when any one will be found alive. The station is high up in the Andes. It was completely obliterteated by monster snow slide.

CAN THE THORNTONS SPARE THE SENATORSHIP?

An Open Letter.

To the Editor of the Manassas Journal:

Sir:—I have made speeches in nearly every part of this district in the interest of my candidacy for renomination as State Senator. Mr. R. E. Thornton has been invited to nearly all of these meetings, but he has not appeared at any of them. I have not, therefore, learned directly from him upon what ground I should be refused a renomination. In his circular letter he says he has nothing to say against me. Is it not, then, unreasonable for him to ask the people to turn down a Senator against whose record he has nothing to say?

To a number of prominent citizens of the district, I am informed, he has confided the fact that he is running solely in the interest of his brother, Judge J. B. T. Thornton, who will be a candidate for the judgeship before the next General Assembly. And some of these gentlemen have expressed the belief that it would be better for Mr. R. E. Thornton if he were running in the interest of the people rather than altogether in the interest of his brother.

The constitution, which Judge Thornton helped to make, prohibited any man from going to the legislature to get himself elected judge. Is it not almost as bad to send one's proxy there in the person of one's brother to get oneself elected judge?

Moreover, a great many people think that considering how many offices this particular family have held, are holding and are seeking to hold, it is somewhat grasping for them to be trying to send Mr. R. E. Thornton to the Senate. Judge Nicol held the circuit judgeship twelve years. Judge Thornton, who has been appointed to succeed him, is his brother-in-law. Judge Thornton was Commonwealth's Attorney for many years, succeeding another brother-in-law, the late Mr. J. J. Davies. Mr. J. Jenkyn Davies, who is a son of the former Commonwealth's Attorney, and a nephew of Judge Thornton, is earnestly endeavoring to succeed his uncle in that office. And now Mr. R. E. Thornton, another uncle of the aforesaid Mr. J. Jenkyn Davies and a brother of Judge Thornton, is with feverish activity attempting to succeed your humble servant in the State Senate.

Now, honestly, Mr. Editor, don't you think that this would be a little too much of a family party? Wouldn't it remind you just a trifle of the old time royal families who held all of the offices by hereditary right and graciously permitted other people to enjoy those few and unimportant offices which they did not desire for themselves?

Mr. Thornton complains that Alexandria is getting all of the offices, but it must be remembered that the inhabitants of Alexandria are somewhat more numerous than the Thornton family.

I do not wish to express any opinion as to the fitness of these several gentlemen for these various positions, but I hope I may not be thought presumptuous if I suggest that the Senatorship should be allowed to fall outside of the family circle. Very respectfully,

LEWIS H. MACHEN.

Alexandria, Va., Sept. 4, 1907.

SCHOOL BOARD.

At the monthly meeting of the City School Board held last night there were present Capt. Herbert Bryant, chairman and Messrs. Thompson, Yates, Ramsey, Thomson, Bradshaw, Carne, Carter and the Superintendent.

Mr. Yates reported that all the work that the committee on schoolhouses and furniture could accomplish with the $500 limit had been done; there was other small work, such as guttering &c., however, that should be done for the protection of the property. He stated that the janitor of Seaton building had, some months since, moved from the janitor's building on account of its untenantable condition, but that since the committee had by the expenditure of $70 put the building in good order; the janitor, however, did not want to move back into the janitor's building again, but asked the board to rent the building to some one else and give him an increase of salary.

The sense of the board was that the janitor should live in the janitor's building.

The superintendent stated that the legislature had passed an act requiring morals to be taught in the schools and that the State Board of Education had therefore adopted two books—"Guide Right" and "Comegys Primmer of Ethics." The Board also adopted these books and ordered them to be placed on the book list.

Mr. Carne questioned the right of the State Board to order the teaching of morals; as there might be a difference of opinion as to morals. He raised no objection, however, to the adoption of the books.

Several bills for repairs and supplies were ordered to be paid.

The Superintendent stated that he wished to call the attention of the board to the fact that the City Council does not furnish a sufficient amount of money to properly conduct the schools; last year a considerable sum had been spent for repairs to the buildings. He also thought that some of the teachers should be better paid and that Council should be asked at once for an additional appropriation of $1,500.

The Clerk was directed to request Council to make an additional appropriation of $1,500 so as to increase the salaries of some of teachers and to liquidate the indebtedness of the board incurred last year.

Mr. Yates stated that some time since Dr. Smith, a member of the board, had temporarily removed from the Fourth to the Third ward; he had now moved back to the Fourth ward and in conversation today had stated that he would again attend the meetings of the board if notified to do so.

It was stated that under the State laws a trustee moving from one ward to another vacates his seat and that the Superintendent had at that time informed the board that a vacancy existed by reason of Dr. Smith's change of residence.

THE BOOKS NO ELEPHANT.

Some people in this city seem to be pressed by an imaginary difficulty because five thousand copies of A. J. Wedderburn's History of Alexandria have been deposited in the capacious City Hall. The City Council several months ago appropriated $500 for the purchase of these books, and there should be no movement inaugurated for disposing of the entire five thousand at one time, certainly not now while storekeepers who have purchased many of the histories are offering them for sale. The author of the book will in a short time have many copies distributed at Jamestown under his own supervision and at no cost to the city. The book is undoubtedly one of the best descriptions of Alexandria that has appeared from the fact that it is properly illustrated and consequently interesting, and at least one-half of the five thousand now in the City Hall should be kept for distribution later on. There is no danger of the book getting out of date in the near future, and there will from time to time be requests from people in other cities for copies, especially from such as contemplate establishing enterprises in Alexandria. A few years ago several people from other cities were endeavoring to secure a history of Alexandria. So far as could be learned at the time there was but one copy on the market. This was an accurate history of the city which had been compiled by the late F. L. Brockett and George W. Rock in the early eighties, and was a smaller publication than that which has been prepared by Mr. Wedderburn and not illustrated. The book sold for three dollars. There is an abundance of time in which to distribute the latest history of the city, and should it take several years to dispose of the stock no harm will follow.

GENTRY BROS.' SHOWS.

Gentry Bros.' Famous Shows will arrive in Alexandria on Sunday. There will be two performances Monday—at 2 and 8 p. m. The Juggling Normans, which now appear with this troupe, consist of five brothers, the oldest of whom is only nineteen and the youngest but six years old. These boys do some of the most astounding feats ever seen in their line, and created such a furore in Europe that they were commanded to appear before the Emperor and Empress of Germany and a distinguished company at the Imperial palace in Berlin, where "Little Duke," the "baby" of the troupe, was decorated with a gold medal by the Emperor. The Normans return to Europe at the close of their engagement with Gentry Bros.' and will not visit this country again for some years.

SEWER GAS.

People living in the southeastern section of the city are complaining of the waves of sewer gas which are wafted over that neighborhood. The warm wave of the past week with the wind blowing from the south or southwest has caused the odor to become more pronounced. It is said that the gas comes from the sewer at the intersection of Gibbon and Royal streets, and that the nuisance could be abated at a small cost. Typhoid and malarial fever are likely to be propagated by such unsanitary conditions.

SUDDEN DEATH.

The Alexandria police have been requested to make inquires concerning the friends or relations of a man named S. D. Kern, whose death occurred suddenly yesterday at Bowling Green, Caroline county, and who was said to have been employed in this city recently. It was ascertained that a man by that name, answering to the description of the deceased, had been employed up to a few days ago at the blacksmith shop of T. A. Hinken, on Payne street. He was suffering from consumption, and during his brief stay in this city was treated for a few days at the Alexandria Hospital. It is said that he had friends in Lancaster, Pa.

STILL IN THE HARNESS.

In passing down Alfred street, near Duke, this morning a representative of the Gazette stopped at a small frame building in front of which was seated Mr. Henry Brengle, now one of Alexandria's oldest and most generally known citizens. He is still engaged in baking pies and cakes and furnishing ice cream, as in by-gone days. For three-score years he has conducted the same business in this city, and now an octogenarian is still catering to the tastes of the young and old, as he has done to three generations.

FOUGHT WITH RAZORS.

As the result of a fight on the steamer Westmoreland, of the Maryland, Delaware and Virginia Railway Company, the vessel was held in Baltimore for a short while last night previous to departing for Fredericksburg until the police boat Lannan could reach her. William Frisen, a waiter on the boat, and George Green, a deckhand, were arrested and placed abroad the police boat. A dispute arose between the two negroes and it is alleged each one pulled out a razor and began slashing the other. They were parted in a few minutes by other members of the crew, but not until one had been severely cut. Green was the one cut the worse and he was sent to the Maryland University Hospital. After having his wounds sewed up he was removed to the station house.

French Economy.

France in her system of finance and in her whole scheme of economy aids and encourages saving among the people. The government conducts a vast banking institution whereby every postoffice has its savings bank department—its "caisse d'epargne." Here any one may make a deposit as low as 1 franc (20 cents), which deposit is recorded in one's "livret de la caisse d'epargne" (savings bank book). A convenient feature of this system tending to make saving easy is that one may make his deposits in any postoffice anywhere in France and may withdraw any part or all his savings at any postoffice, without regard to where the deposits have been made. I have never had a servant in France who had not her "livret de la caisse d'epargne," and yet the girl or woman, if she had no family of her own to support, almost invariably contributed to the support of her father's family. I have had one middle aged "femme de chambre" on whose face each day I could read pretty well how the bourse was going.—Flora McDonald Thompson in Harper's Bazar.

Hardened.

"Listen to this, Maria," said Mr. Stubb as he unfolded his scientific paper. "This article states that in some of the old Roman prisons that have been unearthed they found the petrified remains of the prisoners." "Gracious, John!" replied Mrs. Stubb, with a smile. "I suppose you would call them hardened criminals."—Chicago News.

But He Was Cured.

"I think I'll have to take treatment for the forgetting habit. From whom did you take your treatment that was so satisfactory and successful in improving your memory?"

"From—ah, from—ah—oh, I forget his name, but wait a minute, and I'll get one of his cards out of my desk."—Exchange.

Supremely Exasperating.

"Don't you think Mrs. Spurrell has an awful temper?"

"She has, but can you blame the poor woman? She has a husband who just absolutely won't get mad at all."

Dear, Indeed!

"The dear, dear girls!" exclaimed Mrs. Pawkins, looking at her fashionable daughters enthusiastically.

"Yes; the dear, dear girls!" muttered Mr. Pawkins despondently.

Man yields to custom as he bows to fate—in all things ruled, mind, body and estate.—Crabbe.

Taste Governs Spelling.

Shakespeare spelled his own name in sixteen different ways which have survived, and it is evident that Elizabethan spelling "depends upon the taste and fancy of the speller." It is the printing press which made spelling by stereotyping it, and it is, after all, on the printer's reader more than on the professor that the spelling of the future depends.—London Star.

Napoleon's Name.

The name Napoleon written in Greek characters will form seven different words by dropping the final letter of each in succession. When read, these words form a complete sentence, meaning, "Napoleon, the destroyer of whole cities, was the lion of his people."

Wrong.

"There is a word of one syllable in the English language that is always spelled wrong, even by the most educated people."

"What is that?"

"The word 'wrong.'"

Obviously.

"Let me see," mused the sporting editor. "What is an incubator?"

"An incubator," replied the agricultural editor, "is an egg plant."

Discouragement is but disenchanted egotism.—Mazzini.

A humane citizen of Richmond, Ind., Mr. U. D. CANDIDATES.

Senator Machen Asks Renomination.

To the Democrats of the Fourteenth Senatorial District:

I hereby announce that I shall seek a renomination as State Senator at the democratic primary September 10th.

For many years it has been the custom in this district to return a Senator for a second term if he so desired, and I trust that a careful scrutiny of my official record will not disclose any reason for violating this custom at this time.

Having been a resident of Alexandria for more than 5 years, and having been for a much longer period associated in business and otherwise with the people of the city, it is natural to suppose that I understand its needs and could serve its interests in the legislature as well as some one who is not a resident and has had no legislative experience. I solicit the generous support of my home city.

Respectfully,

aug16 td LEWIS H. MACHEN.

TO THE VOTERS OF THE 14TH SENATORIAL DISTRICT. I respectfully announce myself a candidate for State Senate in the democratic primary September 10th, 1907. ALEX. J. WEDDERBURN.

FOR STATE SENATE.

To the Democratic voters of the 14th Senatorial district:

I hereby announce myself a candidate for Senator from the 14th Senatorial District of Virginia, subject to the democratic primary to be held on September 10, 1907, and if nominated and elected, I pledge myself to the service of the best interests of the district and State. Very Respectfully,

R. E. THORNTON.
